PROFESSIONAL SUMMARY

Self-taught **Full Stack Developer** specializing in **Django** and **React**, with a strong focus on building scalable **REST APIs** and production-ready web applications. Proven ability to design efficient database schemas, optimize performance, and deliver clean, responsive user interfaces. Skilled in **Docker** containerization and **CI/CD pipelines** for reliable deployment. Currently pursuing a **B.A. (Honours) in Economics**, bringing sharp analytical thinking to technical problem-solving.

TECHNICAL SKILLS

Languages:	Python, JavaScript, C, C++
Backend:	Django, Django REST Framework, REST API
Frontend:	React.js, Tailwind CSS, Bootstrap, HTML5, CSS3
Database:	PostgreSQL, SQL
DevOps & Tools:	Docker, CI/CD Pipelines (basics), Git, GitHub, Vercel, Render

PROJECTS

Phul Bazar — Full Stack E-Commerce Platform

[Live Site](#) | [GitHub \(Client\)](#) | [GitHub \(Server\)](#)

React.js • Django • Django REST Framework • Tailwind CSS • PostgreSQL

- Built a full-featured e-commerce platform with 100+ products, category filtering, cart management, and order tracking.
- Optimized PostgreSQL queries and database indexing, reducing average page load time by 35%.
- Integrated secure payment gateway with server-side validation via Django REST Framework.
- Designed responsive UI with React.js & Tailwind CSS for a seamless cross-device experience.

Smart Village — Community Management System

[Live Site](#) | [GitHub \(Client\)](#) | [GitHub \(Server\)](#)

React.js • Django • JWT Authentication • PostgreSQL

- Developed a full-stack village-level platform enabling digital access to administrative and community services.
- Implemented JWT-based authentication and role-based access control for secure API endpoints.
- Architected the complete backend with Django REST Framework, including modular endpoints for residents and services.
- Deployed on Render with environment-based configuration for production readiness.

Event Management System

[Live Site](#) | [GitHub](#)

Django MVT • PostgreSQL • Bootstrap

- Built a multi-role event platform — Admin, Organizer, Participant — each with tailored dashboards.
- Implemented CSRF protection, input validation, and permission-based views using Django's auth system.
- Optimized database schema with relational design and ORM query efficiency, minimizing N+1 issues.

EDUCATION

B.A. (Honours) in Economics

Sherpur Government College • Sherpur, Bangladesh

Expected 2026

CERTIFICATIONS

- ✓ **Django & Django REST Framework** — Phitron
- ✓ **React.js - Frontend Development** — Phitron
- ✓ **Python for Everybody** — Phitron

LANGUAGES

- Bengali (Native)
- English (Mid Level)

ADDITIONAL INTERESTS

Docker & Containerization • CI/CD Pipelines • Competitive Programming • Open Source Contribution • System Design
